FOR CHILDREN

PASSAIC COUNTY

About Passaic County CASA

Passaic County CASA is a non-profit organization which organizes the community to take action and advocate for children and families in Passaic County's overburdened child welfare system.

Through an intentional, restorative and culturally relevant lens, we train committed, consistent and caring adults who provide equitable access to resources and life-affirming connections.

Our Mission

Our mission is to champion the best interests of children in the child welfare system.

Our Vision

Passaic County CASA envisions all children and families impacted by the child welfare system receiving the resources and support they need to thrive.

Court Appointed Special Advocacy

The Court Appointed Special Advocacy program provides a consistent, caring adult who speaks up for a child.

CASA volunteers receive specialized training and ongoing support so that they can represent the child's best interests, not only in court, but in all aspects of the child's life.

The Open Door Store

The Open Door Store provides an opportunity for children and teens in foster care (and their caretakers and advocates) to 'shop for free' for new clothing, shoes, and accessories. No money is ever accepted.

We believe that every child deserves the dignity of new clothes, and the opportunity to pick them out themselves.

Safe Babies Court Team

For infants and toddlers, the Safe Babies Court Team program's goal is for children to maintain healthy development and provide a comprehensive approach to ensure a permanent home, specifically family reunification whenever safely possible, is reached as quickly as possible in this critical developmental stage.

Together with your support, we can:

- Ensure every child in foster care has a dedicated champion advocating their best interests
- Help children spend less time on foster care
- Ensure children receive the services they need while in foster care
- Make sure family court judges have the information they need to make decisions about a child's future
